CONTENTS

Analyses of Steel Bridge Circular Columns using Fiber Model considering Local Buckling
Kinoshita, K. .......................... 1-7

Effect of Rigidity of Plinth Beam on Soil Interaction of Modeled Building Frame Supported on Pile Groups
Ravi Kumas Reddy, C. and Gunneswara Rao, T.D. .................. 8-17

Experimental Investigation of the Effects of Reverse Bending and Straightening Process on Carbon Steel Bars used for Civil Engineering Applications
Adewole, K.K. and Bull, S.J. .......................... 18-23

Design Aspect of including Infill Wall in RC Frame Design
Sukrawa, M. .......................... 24-32

Travel Time Estimation and Prediction using Mobile Phones: A Cost Effective Method for Developing Countries
Satyakumar, M., Anil, R., and Sivakumar, B. .................. 33-39

Prediction of Missing Streamflow Data using Principle of Information Entropy
Santosa, B., Legono, D., and Suharyanto .................. 40-45

Trust to Contractor in Housing Construction
Chandra, H.P. and Limanto, S. .......................... 46-53

SWOT Analysis of Housing Co-operatives in South Africa
Jimoh, R.A. and Van Wyk, J.J. .......................... 54-60
