CONTENTS

Seismic Waves Scattering Impact through Tunnel Excavation on Adjacent Monuments Subjected to Far Field Earthquakes
Ghobakhloo, E., Pourlak, M., and Razmkhah, A. 59-66

Prediction of Crack Width Due to Corrosion of PC Tendon in Prestressed Concrete Structures
Maryoto, A. and Shimomura, T. 67-75

The Influence of Seismic Parameters on Site Response
Asakereh, A., Jamali, H., and Naderi, E. 76-87

Application of Spatial and Network Analysis to Evaluate Shelter Plan for Tsunami Evacuation
Sutikno, S. and Murakami, K. 88-94

Community-Based Approach in A Small Scale Irrigation Project in Indonesia: Ways and Advantages
Istijono, B. and Ophiyandri, T. 95-100

Experimental and Theoretical Analysis of Hollow Steel Columns Strengthening by CFRP
Keykha, A.H.-Nekooei, M., and Rahgozar, R. 101-107

OTTV (SNI 03-6389-2011) and ETTV (BCA 2008) Calculation for Various Building's Shapes, Orientations, Envelope Building Materials: Comparison and Analysis
Lockita, S. and Priatman, J. 108-116
