CONTENTS

Strategies for Overcoming Barriers to Improving Safety in Small Construction Organisations
Sunindijo, R.Y. 117-125

The Role of Systems Thinking in Systems Engineering, Design and Management
Chan, W.T. 126-132

Structural Behaviour and Design of Geopolymer Concrete Members
Sarker, P.K. 133-139

Architecture and Structure – Just a Simple Love Affair
Grohmann, M. 140-151

Generalization of FEM Using Node-Based Shape Functions
Kanok-Nukulchai, W., Wong, F.T., and Sommanawat, W. 152-157

Sustainable Concrete Technology
Sim, J. and Lee, K.H. 158-165

Settlement of Thick Clay Deposits under Piled-Raft Foundation and Design Considerations (Pile Dimensions)
Lee, K.Y. 166-178

The Importance of Hydraulic Structures for Society: Quay Walls and Dikes in the Netherlands
de Gijt, J.G. 179-186

Self-healing of Micro-cracks in Engineered Cementitious Composites
