CORRIGENDUM

MAKING SENSE OF OVERCONFIDENCE IN MARKET ENTRY

In Cain et al., 2015, an error was published in the Results section.

Results, page 5

Manipulation checks

These results show that, similar to prior research, participants overestimated their scores on the easy quiz, $t(159) = 6.76, p < 0.001$, and underestimated their performance on the difficult quiz, $t(159) = 5.40, p < 0.001$.

The text was incorrect and should have read:
