CONTENTS

Managing Pre-Construction and Construction Risks on Project Sites in Abuja-Nigeria
Jimoh, R.A., Sani, M.A., Adoza, A.I., and Yahaya, I. 1-7

Effect of Cement Replacement with Carbide Waste on the Strength of Stabilized Clay Subgrade
Munohar, A.S., Hartono, E., Diana, W., and Rahmawati, A. 8-15

Predicting the Response of Shear-critical Reinforced Concrete Beams using Response-2000 and SNI 2847:2013
Suryanto, B., Morgan, R., and Han, A.L. 16-24

The Application of Statistical Design of Experiments to Study the In-Plane Shear Behaviour of Hybrid Composite Sandwich Panel
Fajrin, J. 25-30

Analysis of Rainfall Characteristics for Flood Estimation in Way Awi Watershed

Location Analysis of Freight Distribution Terminal of Jakarta City, Indonesia
Nahry, Tjahjono, T., Iriantika, B., and Semedi, J.M. 38-48

Guideline for Survey, Investigation, and Design of Black Spot Location (SID-BSL) and Its Application in Lampung Province, Indonesia
Susilo, B.H. 49-56

Absorption Characteristics of Cement Combination Concrete Containing Portland Cement, Fly Ash, and Metakaolin
Folagbade, S.O. 57-64
