Proposed Design Philosophy for Seismic-Resistant Buildings
Wariyatno, N.G., Han, A.L., and Gan B.S.

Monitoring the Shear Fatigue Response of Reinforced Concrete Beams Subjected to Moving Loads using Digital Image Correlation
Suryanto, B. and Staniforth, G.

The Correlation between Penetration Pressure Required to Install Pile Foundation and to Insert Bi-cones in Cone Penetration Test
Budi, G. S., Tandiputra, A. G., and Markho, H. K.

Impact of Earthquakes on the Transportation Infrastructure of Indonesia: A Preliminary Study
Amirsardari, A., Sofi, M., Lumantarna, E., Imran, I., and Duffield, C.

Eco Drainage System for Surface Runoff Reduction in Indonesia
Kusumastuti, C., Chandra, H.P., Wibisono, K., and Hartono, A.C.

Performance Evaluation of Hot Mixture Asphalt Using Concentrated Rubber Latex, Rubber Compound and Synthetic Polymer as Modifier
Suaryana, N. and Sofyan, T.S.

Optimization of Resource Leveling Problem under Multiple Objective Criteria Using a Symbiotic Organisms Search
Prayogo, D. and Kusuma, C.T.

Characteristics of PVC Coated Welded Wire Mesh Fiber Reinforced Concrete
Wijatmiko, I., Wibowo, A., and Nainggolan, C.R.
